# Securing a **LIFETIME** of protection

With the advancement of healthcare technology, studies show that the expected life span in Singapore is 84.8 years and forecasted to reach 85.4 years in 2040. It is also predicted that leading causes of death in Singapore in 2040 would be ischemic heart disease, alzheimer's disease, lung cancer, chronic kidney disease, liver cancer, stroke and hypertensive heart disease.

As medical expenses in Singapore are on the upward trend, it is wise to safeguard the financial security for you and your loved ones.

**i-Secure** is specially designed to provide you with whole life coverage against Death, Terminal Illness (TI) and Total and Permanent Disability (TPD) while accumulating cash values and bonuses throughout the policy term.

Moreover, it locks in an immediate high coverage of up to 4 times of your basic sum assured - giving you the utmost assurance when you need it.

### Extend<sup>1</sup> your GB for life

To ensure your GB continues for life, simply extend your GB with additional premiums or fund it with the policy cash value.

### Choice of premium payment terms

Choose your premium commitment for as short as 5 years or over 10, 15, 20 or 25 years.

# ENHANCE YOUR COVERAGE

## for greater peace of mind

Singaporeans are increasingly mindful about their health and well-being. Thus, regular health checkups have become an annual routine. While it is fortunate if you detect illnesses early, you still need to be financially prepared to take care of the rising healthcare cost.

The treatment cost of some common major critical illnesses such as cancer, heart disease and stroke can be significant. You may be unable to continue to earn a steady income when critical illnesses strikes. Therefore, you should ensure that you have adequate protection.
