

Ensure your child is well-protected today for a carefree future

Do you know that you can purchase insurance for a newborn? Premiums typically increase with age, hence it is essential to start planning for your children as early as possible to mitigate any possible risks they might encounter in the future.

Children are our gifts of love and their tomorrows are brimming with endless possibilities. As parents, we put in our best effort to ensure their happiness, well-being, and safety. There are many things that are beyond our control, but there are also significant steps we can take for their protection.

One of our most important responsibilities is ensuring that our loved ones are shielded against unforeseen accidents and illnesses. This is why regular vaccinations are mandated by the Ministry of Health, from infancy and until they grow into young children, while they are still building their immunity and adapting to the outside world.

Give our children wings of independence so they can fully enjoy the joys of childhood; at the same time, make their safety our utmost priority.

The number of weekly reported dengue cases continues to rise sharply, even before Singapore reaches the traditional peak dengue season from June to October. 1,004 dengue cases were reported in the week ending 30 April 2022, 63 cases more than in the previous week. Most mosquito breeding continues to be found in homes.*

Parents' obligations are for life and often begin even before a child is born. Ensuring your children's secure future is as important as taking care of their daily needs. This responsibility means being adequately prepared for unexpected situations, such as unfortunate events or a financial emergency, so that the quality of your children's life will not be compromised. Insure your child as soon as they are born to safeguard them. With proper insurance plans in place, any future risks or threats will be minimised. Here at China Taiping, we offer a wide range of insurance plans that are not just catered to children, but also for parents and individuals, such as [Savings Insurance](#), [Legacy Insurance](#), [Whole Life Insurance](#) and many more. Be well-prepared for whatever life throws at you, and you can fully enjoy parenthood and completely cherish each of your child's milestones.
